

COMPANY D SCHEDULED TO REACH PHILADELPHIA MAY 12

ENTIRE 110TH ON THE WATER SINCE APRIL 29, OFFICIAL WAR DEPARTMENT STATEMENT SAYS

Connellsville Company, Part of Medical Detachment, Some From Mt. Pleasant, Also Company C, Somerset Traveling on Transport Luckenbach, Others on Second Vessel, Day Later.

GREAT RECEPTION FOR BOYS IN PHILADELPHIA

The 110th Infantry—the Old "Fighting Tenth"—is on the Atlantic, homeward bound. All doubt as to when the famous Western Pennsylvania command will return to America was settled by official announcement by the War Department, that the regiment is speeding toward Philadelphia on two transports, due to arrive at the Quaker City May 12 and 13. The unit left St. Nazaire on April 29.

Company D and part of the Medical Detachment, Connellsville; part of Company E, Mount Pleasant; Company C, Somerset; Headquarters Company and Machine Gun Company, also Companies A and B, a total of 27 officers and 1962 men, are aboard the transport Luckenbach, scheduled to reach Philadelphia on May 12.

Part of the officers and men on the Luckenbach will be sent to Camp Dix, part to Camp Sherman, part to Camp Grant for demobilization. Previous to this the regiment will probably participate in the parade of the 28th Division in Philadelphia.

On the Santa Olivia, which sailed via Brest, are the other units of the 110th: Companies F, G, H, I, K, L and M; a detachment of Company E, part of the Medical Detachment, and a detachment of the 108th Machine Gun Battalion. The transport should reach Philadelphia May 13.

These troops will go principally to Camp Dix, which gets 22 officers and 721 men, Sherman gets 147 men; Grant one officer and 122 men.

Company M of the 104th Infantry, with a small detachment of the same regiment, also is aboard the Luckenbach.

The official War Department statement substantiates reports that have been about for several days that the 110th was enroute to the States.

Official announcement of the time of the return of Company D and the Medical Detachment will stimulate the movement for a celebration in honor of the returning troops. Owing to the fact that the 319th Infantry and 320th Infantry are included in the plans of the home-coming celebration as well as members of other units, it is impossible that it will not be possible to fix a definite date.

According to official announcement this week the 80th Division in which are the 219th and 320th regiments, is expected to return to the States in the next of May or early June.

Preparations are being made by relatives and friends of the soldiers to go to Philadelphia for the home-coming and the parade that is scheduled to be staged there about the middle of May, the date not yet having been set. The city authorities will provide free seats to the grandstands being erected along the proposed line of march for relatives of the men and those who will be furnished on application with the ticket of kin. On another page of The Courier today will be found a blank which should be at once filled in and returned to the address given therewith in order that seats may be secured in time for the parade.

BROTHERS IN REUNION

Phil and Jud Swartzwelder, Long Separated, Meet in France.

Letters received from Phil and Jud Swartzwelder tell of their meeting recently in France, after a separation of about two years. The brothers met at Le Mans in April. Just as the former was about to leave for port.

In June, 1917, Phil, with four members of the 110th Infantry Medical Detachment, left for special medical training at Fort Benjamin Harrison, Indianapolis, Ind. After finishing his training in September of that year, he joined his regiment at Camp Hancock.

About the same time Jud left with the first draftees for Camp Lee, Va., and while the boys had tried several times to arrange for a reunion at the same time, were unsuccessful. Phil sailed the first of May, 1918, with the 28th Division, and Jud sailed about two weeks later with the 80th Division, and their recent meeting was the first they had seen each other since June, 1917.

RECENT GOODMAN

AT CAMP KEHRITZ.

Sergeant Charles P. Goodman, attached to the Rainbow Division, has arrived at Camp Merritt, N. J., and expects to be granted a few days' furlough, previous to leaving for California state to be mustered out of the Army.

Sergeant Goodman has been in France for 18 months and for some weeks was in a base hospital in France for treatment of an injury to the hand caused by the bursting of a shell. He is a son of Mrs. John Smutz of the West Side.

Wounded in Action.

Private Harry Rose Ankeny of Indiana, Pa., is reported wounded severely, and Corporal Robert F. Selep of Indiana, slightly wounded, in today's fighting.

WEST VIRGINIA WILL FIGHT HARD TO SAVE HER GAS

This is Indicated in Statement Relative to Suits by Pennsylvania and Ohio.

By Associated Press.

CHARLESTON, W. Va., May 2.—West Virginia will do everything in her power to resist the attack that is proposed to be made by the states of Pennsylvania and Ohio in the United States Supreme court on the constitutionality of the Sequester gas law enacted at the regular session of the West Virginia legislature. It was declared by Attorney General E. T. England in commenting on a dispatch from Columbus to the effect that a suit to test the law probably would be filed in the Supreme court next Saturday. A dispatch from Pittsburgh the same day indicated that the same action was expected to be taken in the same court by the state of Pennsylvania.

Until the case or cases had been brought, however, and he had been threatened with the text of the petition, Attorney General England said he would not care to discuss the issues involved.

NEW REVENUE RAISER

Introduced by Representative Sinclair of Fayette County.

HARRISBURG, May 2.—A revenue raiser sponsored by Representative Duncan Sinclair of Fayette, was given first reading in the House yesterday.

The measure is an amendment to the act of 1915, which imposes a tax of two per cent on stock transfers. Sinclair's bill raises the tax from two to three per cent.

It is anticipated that the additional money derived from the increase will be used to help pay the state's share of the increase in teachers' salaries, which is provided for in the Woodruff bill. The Woodruff bill, in the amended form, which cuts off all school employees, except teachers, has passed the House finally without a dissenting vote.

Representative Sinclair has been selected a member of a committee to arrange for a visit of the Legislature to Philadelphia upon the occasion of the parade of the 28th Division.

EXPLOSIVES CONFISCATED

New York Police Hoping to Make Roundup of Bomb Plots Today.

By Associated Press.

NEW YORK, May 2.—A large quantity of explosives confiscated by police and federal agents at a house in West 45th street was being examined at police headquarters today in connection with investigation of the May Day conspiracy to kill prominent men by sending bombs to them through the mails.

Officials announced the house was raided last night by detectives of the police "bomb squad."

Federal officers and police were expected to make a roundup of the "Reds" here today.

It was reported here today that cable messages had been sent to members of the peace delegation in Paris warning them against opening packages. However, it was declared, nothing had been learned by investigations to indicate that any deadly contrivances had been sent aboard.

START ROAD JOB

Reagan & Lynch Put Force to Work in Springfield Township.

Ground has been broken by Reagan & Lynch for the five-mile road to be bridged for the State Highway Department through Georges, Springfield and Nicholson townships, extending from Fairchance to Morris Cross Roads. About 30 men are now employed but that number will be increased gradually until about 100 are at work.

All machinery and equipment is on the job ready to rust the \$250,000 contract.

Parade Date Unsettled.

HARRISBURG, May 2.—The date of the parade of the Keystone Division cannot be fixed until we find out about the 108th Artillery, said Adjutant General Frank D. Beary when he returned from Philadelphia.

Decorating Committee Meeting.

A meeting of the committee on decorating for the home-coming celebration will be held this evening at 8 o'clock in the office of J. L. Stader. It is expected several decorating contractors will be represented.

Ammunition Stolen.

MORGANTOWN, W. Va., May 2.—The university armory here was entered last night and 6,000 rounds of ammunition stolen. It is believed to have been stolen by "Reds."

MARKLETON MAY BE TAKEN OVER FOR STATE USE

Visit of Commissioner of Health Today Believed to Forecast This.

COL. MARTIN SO INTIMATES

Place Has Been Used by Government Since Beginning of War for the Treatment of Army Tuberculosis and Gas Cases; Now Abandoned.

That the Markleton sanitarium which during the war was used by the United States government as a hospital for the treatment of soldiers suffering from tuberculosis and also for gas cases, will be taken over by the state for a tuberculosis sanitarium was intimated this morning by Col. Edward Martin, state commissioner of health, who was in the city over night and who left this morning for Markleton to inspect the place, in company with Colonel John McCann, who was recently discharged from the service.

Asked regarding the purpose of his visit, Colonel Martin let it be known that it was to inspect the sanitarium. In reply to a question as to the intention of the state to take over the place he replied that it was so "rumored," at the same time smiling.

The sanitarium has been under government control since war was declared and was recently abandoned and ordered to be returned to private ownership. During the war the sanitarium was officially known as General Hospital No. 17. The state now controls three tuberculosis sanitariums at Mont Alto, Cresson and Hamburg, respectively.

BROWNSVILLE TOWN HALL DAMAGED BY MYSTERIOUS BLAST

Officials at Variance as to Whether Bomb or Gas Caused Explosion This Morning.

An unsuccessful attempt was made at 2:15 o'clock this morning to destroy the Brownsville municipal building. The explosion occurred in the burgess' office on the first floor, damaging the ceiling and tearing a hole about two feet square in the floor. The stairway was destroyed and eight prisoners in the cells below were burned.

Burgess Charles H. Storey holds that it was a dynamite explosion, declaring that a gas explosion would not have caused the damage that was done, while the chief of police contends that it was a gas explosion in that the prisoners were burned, which would not have happened had it been a dynamite explosion.

No one was seen to leave or enter the building previous to the explosion and there has been only one suspect arrested, Charles Bruno, who is held on a charge of being a suspicious character. Constable Wright rushed to the building immediately on hearing the explosion and found the prisoners in a great state of excitement and making efforts to get out of the cells.

No fire followed the explosion. Several windows were shattered in the municipal offices on the second floor and the building in general was practically well torn up. An extended search is being made today to locate the perpetrators but up until noon today no clue had been found.

"PICNIC" SATURDAY NIGHT.

Firemen Want to Dispose of Remaining Company D Tickets.

An effort will be made tomorrow evening at Brimstone Corner to dispose of tickets on the rugs given by George P. Pritchard for the Company D fund.

The volunteer firemen have the work in charge. They will hold another "picnic" at the corner, beginning at 7 o'clock.

Cars Move in Wheeling.

WHEELING, May 2.—In a conference lasting until after midnight the two street car companies of this city and employees agreed to arbitrate the strike which began yesterday morning, pending the meeting of the arbitrators the men returned to work and cars are running today on all lines.

COUNTY MUST ROLL UP \$1,500,000 FOR LOAN IN TWO DAYS

Otherwise the Victory Campaign Will Be That Far Behind Schedule.

TOTAL TODAY \$2,480,350

County Headquarters Again Issue Urgent Appeal to Workers to Put Forth Every Effort to Bring the Drive to a Successful Conclusion.

Two days yet remain of the second week of the Victory Liberty Loan campaign with the official totals showing that approximately \$1,500,000 must be subscribed in the county by Saturday evening to keep pace with the campaign schedule. That point was emphasized in a headquarters' statement this morning to prevent a spirit of over confidence developing again as the result of the pronounced spurt developed in the campaign during the last two days in all districts in the county with the exception of several of the lower Monongahela river districts. The official total at Thursday evening's compilation showed subscriptions of \$2,480,350, a gain of \$255,660 over that of the previous day.

Headquarters officials are scanning closely each report as it comes in as the drive gives indication of safety, passing the critical period. Complete reports of yesterday's intensified canvass are awaited expectantly today.

There is basis for the belief that Thursday was by far the most successful day of canvassing so far in the campaign, but until that belief is backed up by figures, headquarters officials cannot determine the jump which the loan total will take.

Thursday evening's totals do not show the result of a very active day's work in many of the larger districts despite the inclement weather. Neither does it contain the \$120,000 subscription of W. J. Parrish which will be equally divided between Uniontown and German township, and which qualifies Mr. Parrish for the \$100,000 Victory club being the fourth member in Uniontown. Major subscriptions by T. B. Semans, E. S. Hickey, James R. Cray, the Thompson Connellsville Coke company and Mr. Parrish give that feature of the campaign an aggregate of \$470,000.

Should complete reports be submitted today from a majority of districts the \$3,000,000 mark will be secured if not passed this evening, close observers of the campaign's progress believe.

Fayette City, Washington township and Jefferson township are now the only large districts which have not been canvassed.

The Baltimore & Ohio canvassers made a grand rally this afternoon. With a total of \$40,000 to date, the team canvassed thoroughly again this afternoon. W. A. Woods, a special representative of the federal manager, arrived here at 3 o'clock on Train No. 16. He addressed the men at the shops at 3:15 o'clock in an endeavor to arouse enthusiasm over the loan and have the railroaders give it a boost.

Trainmaster T. J. Ward acted as toastmaster.

The West Penn Railways company is already 100 per cent in five days. With a total of \$40,000 to date, the team canvassed thoroughly again this afternoon. W. A. Woods, a special representative of the federal manager, arrived here at 3 o'clock on Train No. 16. He addressed the men at the shops at 3:15 o'clock in an endeavor to arouse enthusiasm over the loan and have the railroaders give it a boost.

Trainmaster T. J. Ward acted as toastmaster.

When all the departments have fully subscribed there will have been 599 bond buyers employed by the electric company. Already the following departments are 100 per cent: power house, 233; car barns, 95; storeroom, 34; laboratory, 24; garage, 12.

A general celebration was to be held at the power house this afternoon when the German helmet awarded it for being 100 per cent will be presented. The helmet is now in the hands of L. E. Hankinson. In addition to the helmet, which was awarded by the county, a large banner, four feet high and 20 feet in length, has been painted for the power house. This will be placed on the side of the plant facing the river.

Pact Will Be Submitted to Teutonic Delegates on Monday Afternoon.

Enemy Envoys Will Be Given 15 Days to Consider Text and Five Days for Exchanges With the Allied Representatives; Must Then Decide.

COMPRISES 20 CHAPTERS

By Associated Press.

If the work of carrying out the last phase of the peace negotiations progresses according to the program outlined in Paris dispatches the treaty ending the great war probably will be signed early in the week beginning May 25.

The treaty will be presented to the Germans next Monday afternoon. Reports from the peace conference indicate that it is to be a "victors' peace" and there will be no oral conversation except the merest formality when the treaty is handed over. Fifteen days will be given the enemy to consider the treaty with an additional five days or a week for the exchange of views between the Allied and German delegations.

Thus, at the latest, if present plans are followed, May 27 should see peace reigning once more between Germany and the allied and associated governments.

A secret plenary session of the conference will be held Saturday, while on Monday a meeting will be held for the organization of the League of Nations. Italy still is not represented at the conference, but her ambassador is invited to attend such conferences as the regular peace delegation from that country would attend. He has been asked formally to be present Monday to represent his nation at the formal launching of the League of Nations.

Not formal program was announced for today's session of the council of three but it was unofficially stated that the meeting was being devoted to odds and ends and lesser details remaining to be put into shape for the final completion of the treaty.

PARIS, May 2.—The Chinese delegation to the peace conference is expected this afternoon to make a statement concerning the settlement of the Kiao Chau dispute effected by the peace conference. It is understood that the Chinese representatives will express their keen dissatisfaction with the decision.

PARIS, May 2.—The treaty of peace comprises from 15 to 20 chapters, according to Marcel Huin of the Echo d'Paris. The preamble is contained in the first chapter, setting forth the reason why the various contracting parties entered the war and mentioning the necessity for the League of Nations.

The second chapter deals with the German frontier and the third contains all clauses dealing with alterations of frontiers, resulting in changes in the sovereignty of the territories.

The fourth sets forth the military, naval and aerial clauses and the fifth takes up the disposition of the German colonies, it is said.

The other chapters are not as yet altogether finished but they will concern reparation, economic and financial questions and will deal with the international labor legislation treaty. The treaty concludes with the chapter concerning the guarantees for the execution of the treaty conditions by Germany.

M. Huin adds that there is every reason to believe the German delegation really has full power and will end the negotiations by signing the preliminaries of the treaty.

PARIS, May 2.—The naval terms to be embodied in the peace treaty with Germany, which finally have been completed, do not provide for the sinking of the larger German warships. The disposition of these vessels is left to be decided upon later by the allied and associated powers.

STATE HOLIDAY PLANNED

Governor Asked to Proclaim Day of 28th's Parade in Philadelphia.

PHILADELPHIA, May 2.—The Philadelphia chamber of commerce today sent a request to Governor Sproul to proclaim a holiday throughout the State on the day troops of the 28th Division parade in this city.

The governor was also asked to suggest to the Legislature that an appropriation be made for a proportionate share of the fund for the feeding, housing and entertainment of the troops.

BOY SCOUTS PLAN PEACE BONFIRE ON SIGNING OF TREATY

Demonstration Will Be Held in
Davidson Addition,
Probably.

NEW HEADQUARTERS OPEN

Former Office of the City Sealer Is
Placed at Disposal of the Organiza-
tion; Will Be Accessible to Members
at All Times; Like Is Arranged.

A peace bonfire ceremony will be held by the scouts on the evening of the day the peace treaty is signed. This demonstration will likely be held in the Davidson addition at the head of Green street where the huge fire can be seen from most all parts of the city. The same ceremonies will be observed all over the United States by the Boy Scouts of America.

"Be Prepared"

There will be a hike to "Tate's Hollow" by way of Maple Springs on Saturday May 3. Dinner and supper will be cooked in the woods. First and second class tests will be given those desiring to take them. Scouts going on the hike will leave the Baltimore & Ohio Y at 9 A. M. sharp. Every boy who can is urged to go on the hike.

There will be a meeting of scoutmasters on Monday evening at 7 o'clock at scout headquarters at city hall. All scoutmasters and their assistants are urged to be present. The room formerly used by the sealer of weights and measures has been secured as headquarters and the aim will be to have the place accessible at all times to scouts. A large reading table and a roll top desk are required to fit up the new headquarters. Any one wishing to donate such or to sell cheap is asked to communicate with Scout Commissioner R. C. Witt, Bell phone 831 or Charles A. Crowley. It is expected the new headquarters will be opened soon to the scouts.

Senior Patrol Leader Melvin Johnson announces an outdoor meeting and firebuilding and cooking instruction for the regular meeting of patrol leaders on Thursday evening at 7 o'clock. The patrol leaders are requested to meet in uniform at the scout headquarters with grub and cooking utensils.

The motto "Practice makes perfect" is to be remembered by the scouts taking part in this play to be given in the near future in which the boys will demonstrate what they have learned since becoming scouts. There will be a meeting next week when all the cast will drill together. Watch for announcement of the date.

Troop No. 1 has organized a baseball team and is ready to hear from other troops regarding a game. Troop 4 team feels invincible. With the addition of three new candidates Troop 4 now has a full roster.

There are several places in the Conneltsville scout organization where men could be used as scoutmasters and assistant scoutmasters. Men interested in boys' work could be used. A scoutmaster must be an American citizen and at least 21 years of age. An assistant must be 18 years old. Men who will undertake to train the boys may see Scout Commissioner R. C. Witt for further information.

MAY NOT BE HOME UNTIL FALL, PRIV. CUNNINGHAM WRITES

Stephen of F. W. Howard is in Regular Army in Germany Hoping to Be Given Transfer.

Writing to his uncle J. W. Howard of West Apple Street, Private Joseph Cunningham a member of Company G, Sixth Infantry in Germany, says he does not expect to be home until September unless he is transferred into some National Army division. The letter written by him on March 8 says in part:

"I expect to go on a leave for 15 days down in France saving here next Sunday morning. As far as coming home is concerned nothing looks a bit bright and it seems as if we will

This Pretty Girl Who Defies Age Uses Howard's Buttermilk Cream to Beautify Her Complexion

Fells C. Roy Hessel, Conneltsville, Pa. and all good drug and department stores not in take anyone's money unless this delightful new vanishing cream quickly shows a decided improvement. Try it today at our counter.

The first application of Howard's Buttermilk Cream will as surely as it takes away beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the dull, out most lifeless complexion to radiance, beauty and makes red or rough hands or arms snowy white, it does not in the slightest way of its use after application. It actually vanishes from sight and the most beautiful atmosphere will not protect the just shyness or freshness of the skin. No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, freckles, crow's feet or lines around the mouth, sagging finger nails or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Buttermilk Cream.

will freely return the purchase money to any dissatisfied user. Beautiful actresses say: "A short message with Buttermilk Cream at C. Roy Hessel, Conneltsville Drug Store before retiring is all that is necessary."

Secure Interest in Campaign; Agent
TWITT Disposes of Several Homes.

Special to The Courier.

SCOTSDALE, May 2.—On Tuesday
evening Richard Murray and Sam
Fate, both colored, and Joe Pen-
nate were given a hearing charged
with breaking and entering the meat
market of Richard Parker on Pitts-
burg street. At the hearing the boys
admitted having entered the market
and taking hams and \$70 in cash.
They implicated John Maucene, a
shoemaker, who lives in the building
next to the meat market, stating that
he had promised to buy the meats.
Maucene and the boys are being held
under \$500 bail for their appearance
at the May term of Court. Chief of
Police Frank McCudden has succeed-
ed in recovering \$43 of the money
stolen.

To Bless School Building.
The school building of St. John's
parish will be formally blessed next
Sunday afternoon at 3 o'clock. Rev.

for \$2,700. Six-room modern house,
vacant, can give immediate posses-
sion; for \$3,100. E. F. DeWitt.—Adv.
—2-21.

Swimming Pool Free.
Any boy in Scottdale, whether in
school or at work, who is more than
10 years old and under 16 years, can
have, without cost, the privilege of
the shower baths and swimming pool
during the month of May. This has
particular reference to working boys,
but will also apply to boys going to
school. The only effort the boys must
make in order to secure these priv-
ileges is to sign the following pledge:

"Upon my honor, I will do my best to
live clean—that is, to refrain from the
use of tobacco and keep my body
clean—to use nothing but clean
speech, play fair in my studies, and
keep the rules and regulations of the
association." There are no strings
tied to the membership. It is free
under the above conditions.

Reports from the boys from Scottdale
attending the older Christian boys'
conference at Johnstown are to the
effect that it was a wonderful suc-
cess. Among the leading speakers
were: Dr. Charles W. Glick of the
Hyde Park Baptist church, Chicago;
Mr. James C. Mace, religious work
director of the Pittsburgh Central Y.
M. C. A., who conducted the Bible
study hours; W. W. Gibson, state sec-
retary for boys' work in Massachu-
setts and Rhode Island; A. R. Klesner,
Buffalo Metropolitan boys' work sec-
retary; J. M. Barker, rector of the
Episcopal church there and just re-
turned from front line service and
decorated with the D. S. C.; H. W.
Wright, recently returned from the
Higginson and Metropolitan fronts;
and H. T. Baker, international boys'
secretary for the eastern district.
Three hundred forty-seven boys were
in attendance. Charles B. Dickertoff
was elected vice president of the con-
ference.

THEY GAVE YOU INVEST.

Of the many convincing and able
arguments set forth in urging Ameri-
can citizens to subscribe for the Vic-
tory Liberty Loan, none offered in this
city have quite as much directness and
force as those presented in The
Courier yesterday by Howard Reppert,
a Connelville boy, who carries up-
on his body the mark of the price he
paid to help maintain the honor, tradi-
tion and principles for which our
country stands.

From the depths of an experience
which came only to those who went
through the baptism of war's inferno,
and the long, weary hours of waiting
in the hospitals while nature, the skill
of surgeons and the tender hands of
patient nurses were doing their best
to heal war's awful hurts, Private Reppert
and others who suffered as did he,
alone have the right to use of the
word "sacrifice" when "speaking of
things done to win the war."

Liberally as you may have subscrib-
ed for the previous series of Liberty
Bonds; often as you may have been
called upon to contribute to the Red
Cross, Y. M. C. A., K. of C. and other
war-time organizations for relief, the
most that you have at any time done
has been to practice a little self-de-
nial, and you don't have to do that
now. Thousands of boys like Private
Reppert who have given an arm, a leg
or the priceless God-given sense of
right, will never cease to pay. But
they gave without thought of com-
pensation, ready and willing to pay
any price for the Victory you are now
enjoying.

"You think," Private Reppert drives
home to you, with a logic of fact you
cannot deny, you have made sacri-
fices by investing in the other loans,
but honestly you get more out of them
than you put in. Even in the last
loan you are not asked to sacrifice,
merely invest. But if you invest a lit-
tle more than you really think you
can afford, then it will be a sacrifice
you can be proud of.

"The eyes of the world are upon
you during this crisis. If you come
across and go over the top as gallant-
ly as the boys did who are daily re-
turning to our shores, then the world
will know us for our true worth. If
our country fails (and you individu-
ally make up our country) then the
world will be convinced that we put
money above principle."

When the boys entered the service
they offered their all. At no time
have you been asked to do more than
invest a part of your means. The boys
"gave love, family, position and op-
portunity in order to offer their lives
for freedom's sake and expected noth-
ing in return. You invest in bonds
and expect interest. They invested
their lives and expected nothing."

Some of you have whined and
whispered about the number of calls
made upon you during the war and
have contributed begrudgingly and for
fear of the desperate you might suffer
if you did not come across. How
have the soldier boys behaved when
asked to pay? Private Reppert tells:
"I have never seen a more cheerful
or optimistic bunch of real men than
the thousands I came in personal con-
tact with who had lost arms, legs, eye-
sight and even reason in the ter-
rible conflict on the other side. Ad-
versity seemed to encourage rather
than discourage them. You couldn't
down their spirit."

These men "can face life with a
smile because coming alive out of the
damnable happen of hell-fire their
souls are pure and their consciences
are free. They can look any man in
the face squarely. They know they
have done their best."
How it is with you? "Can you,"
asks Private Reppert and the thou-
sands of unnamed heroes for whom he
speaks, "do as much? If you can't,
this is your last chance to make good.
Finish the job. Buy a bond. Do your
best."

AN ANONYMOUS REQUEST.

The editor is in receipt of a clipping
from a recent issue of The Courier
upon the margin of which is written
the request: "Please correct this to
conform to the facts."

The unknown correspondent hav-
ing overlooked the long established
rule of newspaper offices requiring
the names of the senders of com-
munications, and also having failed to
indicate wherein the article in ques-
tion was in error, the request cannot
be complied with, much as we have
the desire and willingness to do so
and to the extent the circumstances
may warrant.

Thanks to the vigilance of police
officers and returned soldiers through-
out the country the Reds did not make
"Red May Day" as we as they expect-
ed.

The announcement of the coming of
the Chauncey review the hope that
we will have summer even if spring is
long in coming.

The Japs at the Peace Conference
again threaten to go home. If they had
known it here is no time to let them
go.

Civilians may prefer many argu-
ments for the purchase of Victory
Liberty Bonds, but it takes the boys
who have been through the hell of
war to put the clinchers on.

News of the actual sailing of the
10th Infantry and Medical Detach-
ment will bring cheer to many homes
in Western Pennsylvania, save those
awaiting a home-coming that is not to
be.

Pittsburg is becoming magnanimous.
It really consents to permitting pas-
sage of the 24th Division to parade in Phil-
adelphia.

One of the German delegates to the
Peace Congress nearly fainted during
the informal ceremony of exchanging
credentials. What will be the result
when the Hun representatives learn
all the terms and conditions of peace?

Here's hoping the Connelville vet-
erans of the 10th Infantry may be per-
mitted to celebrate the one hundredth an-
niversary of their membership with as
much zest as they celebrated the cen-
tenary of the order.

Rippling Rhymes

By Walt Mason.

SONG OF PEACE.

"Oh, the day is bright and sunny, and
the whistling is gone, and I'm chip-
per and bunny that is playing on the
grass, and all my care and woes are ban-
ished and I'm standing on my head, for
the winter has vanished and it didn't
leave me dead. Many things there
were to fret me when I'd winter
days were here: punk diseases tried
to get me and to lay me on my bier;
I had jaundice and rheumatism till I
almost gave up hope, and the doctors
combed their attics, raking up all sorts
of dope. I had itch and bilious fever
and lot of other ills, and the drug-
gist, like a beaver, worked, com-
pounding noxious pills. Every hour
I sought the basement, there to feed
the furnace coal, which was shoveled
through the casement by a man who
got my roll. And my uncle saw me
daily, soaking pictures from my wall,
which I'd purchased blithely, gayly,
in the summer and the fall. Oh, for
winter there's no pardon, and I'm glad
the blasted things are gone, as I
whoop around my garden, turning
hand-springs on the lawn. When this
ding-donged home is written I shall
best a lot of chairs for I'm happy
as a kitten, and I have no woes or cares."

Just Folks

Edgar A. Green.

WHAT WINS.

It's the everlasting climbing that gets
you to the top.
And the everlasting sticking to the
task you'd like to drop.
It's the grit and vim and muscle
in the rough and tumble tussle
That will bring you home to victory
and the distant goal you seek;
It's the ever up and working,
Never lying down and smirking
That eventually will land you on the
mountain's sunny peak.

It's the patient perseverance to the
plan which you have made
That will bring you through the dan-
gers and the pitfalls which are
laid.

It's the steady, constant driving
To the goal for which you're striv-
ing.
Not the speed with which you travel,
That will make your victory sure,
It's the everlasting gaining,
Without whispering or complaining
At the burdens you are bearing or the
woes you must endure.

It's the holding to a purpose, and the
never giving in.
It's in cutting down the distance by
the little that you win.
It's the sure and firm endeavor,
Not the brilliant stroke and clever,
That shall bring you home to glad-
ness and to days of joy and song,
It's the iron will to do it,
And the steady sticking to it,
So whatever your task, go to it!
Keep your grit and plug along!

BITUMINOUS COAL STOCKS ARE BEING RAPIDLY DEPLETED

Since January 1 Decline In Estimated at About 8,000,000 Tons.

BY-PRODUCT SUPPLY LESS

By \$1 to \$3 Per Cent Than at First of the Year Total Falling Off in Production Was 31,000,000 Tons; Situation Indicates Rising Prices.

Stocks of bituminous coal in the hands of industrial concerns, the iron and steel industry and public utilities, gas and electric, declined 25 per cent, or about 8,000,000 tons, in the three months from January 1, to April 1, 1919, according to information collected by the Bureau of Statistics, and made public by the United States Fuel Administration.

Stocks of bituminous coal held by plants engaged in the manufacture of iron and steel decreased 24 per cent from January 1 to April 1. The largest decreases were in coal for use in by-product coke ovens, 31 per cent decrease in stocks of high volatile and 33 per cent in stocks of low volatile. Gas coal stocks decreased but six per cent and steam coal stocks 17 per cent. The stocks of high volatile by-product coal on April 1 were sufficient for nearly three weeks' operation, those of low volatile for four weeks. Stocks of gas coal were sufficient for six weeks and of steam for seven weeks.

Stocks of gas coal at steel plants in Pennsylvania were increased from January to April by 200 per cent, but in all other States were decreased. Excepting Alabama, stocks of steam coal were decreased in all States. New York, Pennsylvania, Michigan and West Virginia reported slight increases in stocks of high volatile by-product coal, but decreased in low volatile; other States reductions in storage of both grades of by-product coal were the general rule.

As indicating the sections of the country where abnormally large stocks were accumulated it is noted that the storage piles of industrial plants in Delaware, Texas, Mississippi, South Dakota, Wyoming, and Nevada were reduced more than 50 per cent from January 1 to April 1. More significant, however, is the decrease of from 40 to 50 per cent in stocks in the region about the Lake Superior and Lake Michigan, both upper and lower, Texas, Missouri, and Ohio. The same decrease is reported from Georgia, Maryland and Oregon.

Decreases in stocks of from 30 to 40 per cent are reported for New England and New York in the northern section of the country. In North Carolina, Kentucky, Illinois and Arkansas in the southern; and central States and in North Dakota. Decreases of from 20 to 30 per cent are reported in Pennsylvania, New Jersey, West Virginia, Indiana, Louisiana, Montana, Utah and Washington.

From Pennsylvania and Maryland in the east to Kansas and Nebraska in the west and in the Mississippi Valley south to the Gulf, excluding the state of Mississippi, but including Florida, stocks in the hands of industrialists are sufficient for from three to five weeks. New England reports from 11 to 15 weeks, except New Hampshire with 20 weeks. New York nine weeks, New Jersey eight weeks and Minnesota seven weeks. Stocks in the south Atlantic section range from five weeks' supply in Virginia to nine weeks in North Carolina. The lower peninsula of Michigan has seven weeks' supply, Wisconsin six weeks and Minnesota ten weeks.

In about one-third of the States east of the Mississippi the stocks of steam coal in the hands of public utilities increased from January 1 to April 1. Georgia in the south, with an increase of 25 per cent and Indiana, Kentucky, Ohio, West Virginia, Virginia, Maryland, Delaware and Pennsylvania in the central-eastern section with increases in stocks ranging from 10 per cent in Kentucky to 125 per cent in Delaware, were the States reporting the increases. In the northeastern part of the country the decreases in New York and New England were small, from three to 20 per cent.

In the aggregate the stocks of bituminous coal held by public utilities decreased but three per cent, the decrease in some States having been offset by increases in others.

Coal for gas making in the hands of city gas plants decreased 15 per cent in the three months ended April 1. Increases in stocks of gas coal were reported in New Jersey, Pennsylvania, Maryland, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Indiana, Michigan and Washington.

No Medicine-Chest Without Its Family Laxative

From the baby to the grandparent a good laxative is the necessary medicine in the little ills. It wards off serious sickness and saves doctor's bills. Many a cold has been prevented from running into grippe and pneumonia by its timely use.

Many a racking headache has been quickly dispelled by it. And it is a laxative rather than a drastic cathartic or purgative that should be in every family medicine-chest, for a laxative can be used at all ages.

Thousands of good American families have for more than a quarter century used a combination of simple laxative herbs with pepper known to druggists as Dr. Caldwell's Syrup Pepsin. It is a laxative- tonic that acts on the bowels and stomach. Infants take it with perfect safety, and it is equally effective for grownups.

Grandparents are now seeing their children give it to their babies. It is excellent for all the family in constipation, no matter how chronic, indigestion, wind colic, biliousness, headaches, dyspepsia and similar ills.

The druggist will refund your money if it fails to do as promised.

Dr. Caldwell's
SYRUP PEPSIN
The Perfect Laxative

PRICE AS ALWAYS
In spite of greatly increased laboratory costs due to the war, Dr. Caldwell's Syrup Pepsin is sold at the same price as before. Two sizes—30c and \$1.50.

FREE SAMPLES—If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. R. Caldwell, 466 Washington St., Monticello, N.Y. If there are babies at home, ask for a case of Dr. Caldwell's book, "The Care of Babies."

Stocks of anthracite in dealers' yards were greater on April 1 than England states, Maine, New Hampshire, Massachusetts and Rhode Island, also in Ohio; in all States south of the Ohio River and east of the Mississippi in Illinois, Iowa, Missouri and North Dakota.

Excepting only Alabama, Montana and Idaho, every State reported decreases in stocks of bituminous coal on hand April 1, was equal to one in dealers' yards. Notwithstanding this, the quantity of bituminous coal quarried the total sold and distributed in the three months preceding.

COAL OPERATORS OF MONONGAHELA VALLEY WANT IMPROVEMENTS

Enlargement of Locks Needed to Handle Maximum Tonnage of Coal That Could Be Shipped by Barge.

Coal operators demand the improvement of the Monongahela river. The big deposits of coal in the upper reaches of that stream, which are available for river shipment are needed for industrial purposes in the Pittsburgh district. More than 4,800,000 bushels of coal are available for shipment by river. Improvements which had been demanded as a war measure by Colonel H. W. Stickley, District engineer, and United States Engineer, W. D. Fairchild, formerly in charge of that stream, were disregarded until operators appealed to Congress asking for relief.

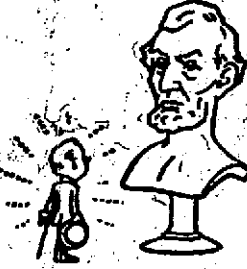

Colonel Stickley presided at two meetings which were called at the behest of Congress to determine the advisability of improvements. The first meeting was held in Morgantown, the second in Pittsburgh. Both sessions were well attended. It was found that improvements were needed badly and that if the immense coal deposits are to be shipped by river necessary improvements must be made and these at once.

The following improvements were demanded: New chamber at lock No. 6 to replace the present one; new standard lock at No. 7, No. 8 and No. 9; an extra lock chamber in addition to the present two at lock No. 4, making three at this point; concrete tops on dams Nos. 1, 2, 3, and 5; extension of guide walls to a length of 500 feet and the middle wall to a length of 75 feet; valves to be placed in all gates, to facilitate the filling and emptying of the lock chamber; extra gate recesses to be filled with concrete, which would give the lock walls a smoother surface, lengthening of the walls on all locks from No. 1 up to and including No. 6, at Rice Landing.

Considering the immense damage done to floating equipment by ice in January and February, 1918, it was suggested that an ice harbor be erected at or near Morgantown as a safe refuge to the floating equipment. The government also was asked to build an ice breaking boat.

It is estimated that these improvements will cost more than \$2,500,000 and that they can be completed within two years.

UP FROM THE SOIL
Lincoln knew its value, says the National War Garden Commission, of Washington, so plant a garden.

Abe Lincoln was a farmer good, who did the chores and chopped the wood; he spaded up the garden spot, and planted seeds when sun was hot. He learned the lesson there of thrift, and though he wasn't very swift, he plodded on from day to day, and made his little garden pay. We all admire old Honest Abe, who started life with hoe and spade, and made the character, b'gosh, that helped him mold our destiny. No greater burdens ever were borne, than his when this old land was torn, by shot and shell and civil strife that gripped the nation's very life. But through it all he led the way, determined that the right should sway, the minds of men till all should see, the negro set free from slavery's tree. His sterling wealth of heart and soul, our press and pulpit extol, and in the schools our children sing, the praises of our uncrowned king. As days and years shall come and go with summer heat and winter snow, they'll find us ever prone to tell of him who served his country well. And generations yet to come, will chant the praises of the magic charm, who started on the humble farm.

MOUNT PLEASANT MEN ARE JOINTLY HELD FOR CRIME

Frank Miele and Domenicko Damico are the Defendants.

PLANNING MILL THIEF CAUGHT

Sam Delaney is Fined \$20 for Being Suspicious Character; He Pays It and Is Then Re-Arrested for Breaking into the Lumber Plant; Notes.

Special to The Courier. MOUNT PLEASANT, May 2.—So that Frank Miele could be held jointly with Domenicko Damico on the charge of murdering Tony Cordella on the night of January 6 in Dutchman town they were brought from the county jail at Greensburg and arraigned before Justice L. S. Rhodes. They waived a hearing and were committed to jail without bail. Previously Miele had been held as an accessory.

Robs Planning Mill. Police Officer M. F. McCully yesterday morning about 4 o'clock arrested a man in the planning mill owned by Charles Bosart and known as the Mount Pleasant Lumber & Supply company. The man when arrested was in the building and had appropriated a large number of saws of various sizes and had a gun on his person. He was locked up and last evening was given a hearing before Justice S. P. Stevens on a charge of being a suspicious character. He gave his name as Sam Delaney and stated that he had come here from Connelville and was on his way to Hecla to find work, having been employed there some time ago. He could not exactly tell how he got to the planning mill but said that it was raining and he had taken refuge there.

Several colored men were brought to identify him and none had ever seen him before. Justice Stevens sentenced him to pay a fine of \$20. After the fine had been collected he was served with a warrant by Police Chief Robert Smith, who charged him with breaking and entering and carrying concealed weapons. He will be given a hearing before Justice L. S. Rhodes today.

HOW A YOUNG GIRL SUFFERED

And Was Restored to Health By Lydia E. Pinkham's Vegetable Compound—Told By Her Mother.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For three months she was under the doctor's care and got no better, always complaining about her back and side aching so I didn't know what to do. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more with her back and side aching. She has gained in weight and feels much better. I recommend Lydia E. Pinkham's Vegetable Compound to all mothers and daughters."—Mrs. M. E. Sparks, 516 Marcy Ave., Brooklyn, N. Y.

SAYS HER FRIEND HAD BEEN CURED BY PLANT JUICE

Mrs. C. M. Wise of No. 182 29th St., Tells How She Came to Try Plant Juice.

When the stomach is not properly digesting the food, there is no limit to the way affections can be spread to every organ of the body, producing

MRS. C. M. WISE intestinal poisoning, rheumatism, liver and kidney trouble, and many other distressing ailments. Plant Juice, the famous stomach remedy, is invaluable in aiding such cases and every day statements are being received from local people telling of the great benefits they have derived from the use of Plant Juice.

Mrs. C. M. Wise, who lives at No. 182 Twenty-ninth street, is one of the best known women in Pittsburgh, having lived here for the past 35 years. She said: "For four years I had been troubled with my stomach and could not keep any solid food in it, as it would ferment and cause gas to form. I suffered agony after eating anything and dreaded to sit down to the table. My kidneys were also badly affected and I had terrible pains across my back and in my side. I had headaches and dizzy spells, due to a deranged liver and I had pains all through my body. I could not sleep I felt in such a nervous condition and had taken all kinds of medicines and treatments without any benefit. A friend of mine, who had been cured of stomach trouble by Plant Juice, begged me to try it. I now have taken several bottles and am feeling fine; my stomach is in good condition and I can eat anything, sleep well and have no more trouble with my liver or kidneys. Plant Juice is a fine medicine and I am glad to recommend it." Plant Juice is sold in Connelville at Roy Hetzel's Drug Store.—Adv.

Calvin Ankeny and son, Earl, of Harrodsburg were here yesterday on their way to Somerset on business.

HAY FEVER SUFFERER

Tells How He Found Relief, It Might Pay Others to Try the Remedy. Milledale, N. J.—"I was run down, could not sleep at night and entirely worn out with Hay Fever. I have charge of Golf Links, but had to lay off for weeks at a time. My druggist asked me to try Vinol. Three bottles entirely cured me and I am healthier and stronger than I have been for twenty years. Every person who suffers from Hay Fever should try Vinol."—Samuel Pickfinger. Vinol contains the tonic properties necessary to enrich the blood and impart health to nerves, muscles and tissue. Laughey Drug Co., Connelville, D. C. Eason, Dunbar, and Druggists everywhere. P. BRAMBLEBRIAR

MR. GROUNDHOG CHANGES HIS MIND

One bright, sunny morning, Mr. Groundhog decided that he would walk down by the creek and pick out a suitable place for his garden. He walked slowly his hands in his pockets, dreaming and thinking about the big luscious tomatoes he was going to raise that summer. The sun grew warmer and warmer as it climbed up into the blue sky, and made large beads of sweat pop out on Mr. Groundhog's forehead.

"Where," he exclaimed as he walked past his backdoor, and seated himself behind the high hedge fence along the road, "I reckon we'll have a blistering hot summer if this keeps up. But then, of course, that's what makes fine tomatoes, and, after all, I shouldn't complain."

And as he lay resting and smoking his corn-cob pipe, his sharp ears caught the sound of voices which seemed to come from the direction of Mr. Groundhog's corn mill. He paid little attention to the voices until they were close enough so that he could distinguish his own name being mentioned. Then he picked up his ears and laid low.

"Do you know," said one of the voices very distinctly, "that old Mr. Groundhog hasn't bought one Liberty Bond? And what's more, I don't think he intends to buy any of the Victory Liberty Loan."

"I don't think we should have any thing to do with him," said the other voice. "Anybody who has as much money as old Mr. Groundhog, and refuses to help his country pay its war debts, should be ashamed to look his fellow citizens in the eye."

These same voices came from Mr. Bear and Mr. Wolf, the most distinguished and important citizens of Bramblebriar Colony. Mr. Groundhog sat in deep silence for a long time thinking what Mr. Wolf and Mr. Bear had said about him. Finally he rose to his feet and started down the road with a quick, determined step and never stopped until he came to the Bramblebriar bank. Walk back up to Mr. Fox who was the president of the bank he said.

"Mr. Fox," he never knew what patriotism really meant to a man, but now I can see it clearly. Please let me give you my subscription for the VICTORY LIBERTY LOAN."

And then Mr. Groundhog started down the road to his cottage by the spring and he walked with a quicker step and wore a broader smile than was known to him in twenty years.

A Great Challenge

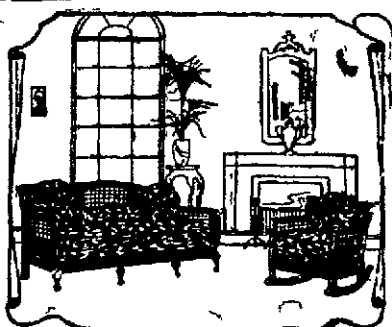

The Victory Liberty Loan is a great challenge to the government. It is the last call to be driven in the highway of peace, and we are the instruments to reach peace to the world. If we should fail the whole structure built at so terrible a price would fall to the ground.

Lucky and Unlucky Accidents. General Grant used to contend that it was because his mother happened on one occasion to be short of butter that he eventually became president. observes London Tit Bits. It was while procuring the butter that the lad heard read a letter concerning a possible vacancy at West Point. He applied obtained the vacancy and from that time never looked back.

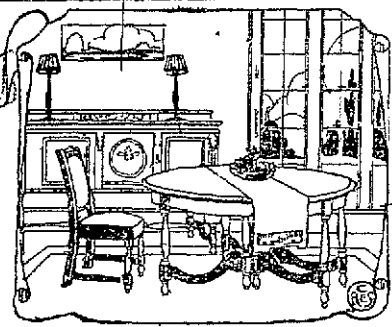

A simple incident observed in a little country town resulted in no less a measure than the introduction of the penny post. The observer of the incident happened to be Rowland Hill. Only a missing marriage certificate prevented the hodgepodge of Hugh Miller establishing his claim to the earldom of Crawford, just as the absence of a comma in a bill passed through congress on one occasion cost the American government a million dollars.

The Open Window. Mr. Walter Winans writing in the Saturday Review on the open window says: "The Russian peasants in whose huts I have lived in very severe winters, seal up the windows hermetically during the whole winter (double windows) and they have warm water to wash in, and do not break the ice to wash as people fond of open windows have to do. In Petrograd some years ago twelve Englishmen started a bathing society to break holes in the ice of the Neva and have a cold plunge every morning. Before the spring they were all dead, and I have never heard of a case of a foreigner (the Russians, of course, never do so) who lived through a Russian winter and slept with his bedroom window open."

Adventurous Mail. "Mr. Thompson is the kind of a man who dares to do odd jobs about the house," remarked Mrs. Dubois. "He told me how you can save him of 50¢," said Mrs. Clipping. "Now?" "The one of these combination table is a hardware store. You know what I mean? That has half a dozen drawers, and is lying around the house. I don't believe there's a man who would not be tempted to throw it away."

FISH WOULDN'T BE FOOLED

Danzons of the Deep Simply Refused to Be Deceived into Any Net Made of Cotton.

Even a fish knows that when an outsider tries to monkey with American business, he makes trouble. It was decided at Washington by the powers that you should be cooked into a raging fish hunger. Pieces in the papers were written to make your mouth water for fish; posters showing beautifully colored fish, lying in beds of parsley, and cool, fresh vegetables were stuck up in your town railroad station and post office. By all the expert calculations of the propagandists you were soon shrieking for fish; you were turned into a man who would perish if he couldn't have his fish.

"Rights" they said. "Cotton isn't as strong as linen, but we'll make our nets of cotton with larger threads. We've got folks hungry for fish and now we must get the fish." So down into the clear waters of the Great Lakes and into the cold depths of the sea on the Pacific coast where the salmon disport went the cotton nets in place of the linen nets that have been used through the centuries by all fishermen. It was a secret in war time, as I have said, but I can tell it now. The fish struck. It was a linen net or nothing with them. Linnin meshes are almost invisible to a fish in water, perhaps entirely so, judging by the number of fish caught in them every year. But cotton meshes—why a cotton net looks like a white sail fence to a fish, said an expert in Herbert Hoover's office in Washington. "He turns around and goes right away from it."—Exchange

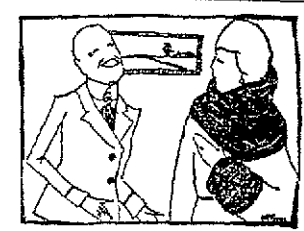

BOLSHEVIK COURSE OF STUDY

Interesting to Speculate as to Just What Would Be Appropriate University Curriculum

The former English minister to Petrograd is authority for the statement that the bolsheviks have established a special revolutionary school at Moscow under the direction of Professor Radol, the revolutionary leader, where agitators from all parts of the world are receiving instruction and fitting themselves for missionary work. It would be interesting to receive a prospectus of Dr. Radol's university and an outline of its course of study. Presumably little attention will be paid to bomb-throwing, the handling of explosives and the like, these being purely elementary branches. One would look rather for special emphasis to be laid upon the Theory and Art of Bolshevizing and Approved Methods of Dealing With the Bourgeoisie and securing their possessions without using physical force. Advanced students might take up the problems how to collect taxes without taking money away from anybody and the counter revolution and how to counter it.

To Make Statues of Silver. Charles E. Swett has discovered a preparation of silver which may be made in a plastic form like wax or clay, and also thinned down to the consistency of paint, according to the Life

the Journal, Cambridge Mass. Copper, copper alloys and bronzes may be worked in the same manner. By simple technology the preparation may be reduced to the pure metal without any change in its form or shape. A sculptor may work it to the round or to the relief, just as he does his usual materials, or in dilution it may be applied to a metallic surface with a brush. It greatly simplifies the problem of artistic work of a high order, although of course it is more expensive than stamped ware. Medallions and figures may thus be presented in the original without the need of casting and such articles as silver sets may be made of which every member is original and unique. It provides a new medium for artists. The invention has been patented. Patronize those who advertise.

THE MAIN POINT "Phil, what are you laughing at?" "I heard a funny story today." "How did it go?" "I don't just remember, but it was terribly funny." A Vow Whether the years prove fat or lean, This vow I have renewed I take you, dearest Margaret, For better or for worse.

Officers for the ensuing year were elected as follows at the regular meeting of the Business Women's Christian Association held last night in the association rooms in Odd Fellows temple: President, Miss Margaret Tweddell; vice president, Miss Gertrude Grimm; secretary, Miss Isabelle Stafford; corresponding secretary, Miss Harriet Johnson; treasurer, Miss Mrs. Fisher. Supper was served previous to the business meeting.

The Ladies Aid society of the Methodist Protestant church met yesterday afternoon in the church with thirty members in attendance. During the business meeting the society decided to donate \$200 towards the billion dollar fund which is being raised by the Methodist Protestant churches. At the conclusion of the business meeting refreshments were served. The committee was composed of Mrs. J. J. Robson, Mrs. Anna McCormick, Mrs. William Sickles and Miss Martha Fabbage.

The regular monthly meeting of the Missionary society of the Trinity Reformed Church was held last night at the home of Mrs. B. F. Rudolph in Vine street. The society was entertained by Mrs. Rudolph and Mrs. Mary Adams with Misses Rupp, Rube and Powers as aides. About fifty persons were present. A dainty luncheon was served. After the business meeting, a social session was held. One new member was received. The June meeting will be at the home of Mrs. Josephine Rhodes on the West side.

Sunday, May 12th is Mother's Day and following the usual custom appropriate services will be held in virtually all of the city churches. The pastors will deliver special sermons and music in keeping with the occasion will be rendered by the church choir. The white carnation, the Mother's Day badge, will be worn in memory of the mothers who are dead, while flowers of various colors will be worn for the living.

Elaborate preparations are being made for the first of the home-coming fund dance which is being given in the armory Friday, May 9, a big success. Chairman Frank R. Sweeney went to Pittsburgh yesterday to get some novelties for the dance. The committee is arranging to feature shadow waiting in the coming series of dances. All the latest music will be played and a large number of people are expected to attend. Ladies will be admitted free.

The annual box-opening of the Woman's Missionary society of the Evangelical church of South Connellsville was held last evening. A literary program consisting of music, readings and addresses was given at the church at 8 o'clock. This was followed by a social hour at the parsonage where refreshments were served. About 40 persons were present.

Yough tent 153 of the Macabees elected delegates last night to attend the Great Camp convention to be held in Philadelphia in July, and also to the Great Camp Old Men's Home convention to be held at the same place and time. The delegates elected by the tent were: Great Camp convention, S. R. Goldsmith and H. C. Batten; Great Camp Old Men's Home convention, C. A. Knight and Martin Rottler.

At a business meeting of the ladies of the Christian church yesterday afternoon the Ladies' League, successor to the Ladies' Aid society, was organized. Mrs. H. E. Schneck was elected president; Mrs. Charles A. Crowley, vice president; Mrs. C. D. Schell, treasurer, and Mrs. J. L. Kurtz, secretary. The league will meet the second Tuesday of each month.

At the regular meeting of the C. W. B. M. of the Christian church yesterday afternoon at the church the Easter boxes were opened and a total of \$126.52 made available for the auxiliary's use. Not all boxes have been returned. Mrs. J. Melvin Grey presided at the business session. At the social session Mrs. W. W. Kerns was chairman. The topic for study was "Cooperative and Organized Efforts of Eastern Women." Mrs. J. L. Kurtz read a paper on "In the Land of Coke and Smoke," the article being written by Rev. Cloyd Goodnight of Uniontown. Mrs. George Porter read a paper on "What is Your Life?" "Opening Education to the Women of the Orient" was the subject of a paper by Mrs. Kern. Mrs. Grey and niece, Miss Louise Solstson, served lunch.

The first annual Mayflower dance given last night in Odd Fellows temple by a committee of Odd Fellows composed of William, Percy, Fred S. Rush and Torrence S. Barner was one of the most enjoyable social functions given here for some time. The dance was well arranged and all present report a very enjoyable time. Those who cared not to dance spent the evening at cards. Music was furnished by Kiefer's orchestra.

Thirteen members attended a delightful meeting of the N. C. T. P. Fancy work club at which Miss Ruby Dell was hostess last evening at her home in South Pittsburgh street. Five hundred, various other games and fancy work were the amusements. Later in the evening a dainty luncheon was served. The next meeting will be held Thursday evening, May 8th, at the home of Miss Winifred Darnell in East Patterson avenue.

At the monthly meeting of the Ladies Aid and Missionary society of the United Presbyterian church yesterday at the church Mrs. Jay C. Stauffer and Mrs. R. B. Treutle were elected regular delegates and Mrs. H. M. Stairs and Mrs. J. G. Showman alternates to the presbytery convention at Logan's Ferry, Pa. June 5. Devotions were conducted by Mrs. Shaver. The second chapter of "Women of the Orient" was taught by Mrs. H. M. Chorpennig. The next meeting will be June 12.

COUNTY MUST ROLL UP \$1,500,000 FOR LOAN IN TWO DAYS

Continued from Page One.
made report to headquarters. There are five districts in all in the "no report" class, but the other two are the comparatively small and isolated districts of Saltlick township and Wharton No. 2. Special appeals have been sent down the Monongahela river to diagnose the trouble with the campaign in Fayette City and the two adjoining townships.

Four of the county's 38 campaign districts have now attained their quota and there is no indication of any let-up in the drive in any of these sections. Smithfield and Belle Vernon yesterday within a few hours took their places beside Wharton No. 1 and Point Marion in the Honor Roll. With a quota of \$30,850 Smithfield has subscribed \$31,100, while Belle Vernon has come across with \$189,000 against a quota of \$123,300. Smithfield came in for the third "over the top" helmet but Belle Vernon also has one coming when the canvass is complete at the plant of the American Window Glass company. Six men of 323 employees have not yet decided how much they will invest in Victory Notes. Steadily the total piles up at Point Marion, the Glass City now showing \$71,850 with indications strong of doubling its quota of \$50,300 before the drive closes.

Although weighed down by a \$227,000 quota Perry township is responding to the loan call and while there has so far been but \$12,000 credited against that quota, Chairman Howard Adams has lined out for substantial subscriptions and these, with the weight of the small subscriptions are expected to make big dents in the quota. Dawson so far shows but \$17,550 against an \$85,700 quota. That district is one of the banner sections and with a record of \$155,800 in the Fourth Campaign, headquarters officials do not believe Chairman R. D. Henry will permit Dawson to lag. Vanderbilt has now passed the half way mark on its \$35,900 quota and Chairman W. A. Cosgrove has his supporters setting a fast pace down the home stretch.

Brownsville township has not added to its initial report of \$500 for several days and some substantial figures should be reported by Chairman Howard F. Taylor today. A loan rally will be held Sunday in the Hopewell Presbyterian church, Lawrence township, when Rev. R. C. Van Eman will appeal to residents of that district to contribute towards the \$200,000 quota. There is now \$13,800 credited to Luzerne. Redstone township presents a slightly better situation with \$43,900 in subscriptions against \$45,500.

PINS FAITH TO SILVER

M. E. Frazer Believes Mining of It Will be Leading Idaho Industry.

The silver country of the Northwest is coming into its own, due to the demand for the metal for coinage purposes, according to M. E. Frazer of East Connellsville who has just returned from the Sea Foam district in Custer county, Idaho, after a stay of a month in the region where he is interested in several properties owned by the United States and Power Corporation, of which he is a member.

First discovered in 1882 this region, Mr. Frazer says, has been little developed owing to its isolation from railroads and of late the war. Now motor trucks are to be used to transport the product the hundred miles to the railroad and a boom is in prospect, he says. Heretofore pack mules were used. Due to China adopting a silver coinage basis and also demands in other countries the price of silver has soared from around 60 cents an ounce to more than a dollar. The company in which Mr. Frazer is interested has 18 claims, there being also deposits of lead.

The Grim Reaper

MRS. D. J. HOOVER

Following a lingering illness Mrs. Caroline Amelia Hoover, wife of D. J. Hoover, died this morning at 2:30 o'clock at the family residence, 257 East Crawford avenue. Mrs. Hoover's death was not unexpected. She had been suffering from complications of diseases for about a year and for the past four weeks she had been confined to her bed. The deceased was born at Brownsville, a daughter of the late George and Eliza Brashear, and had resided in Connellsville virtually all her life; her parents locating here when she was quite young. Mrs. Hoover was twice married. Some years after the death of her first husband, Frederick Teeter of Hamilton, Can., she was married to D. J. Hoover, a merchant of Connellsville. She was a devout member of the First Baptist church and was one of its most active workers until her late illness, being a life member of the Ladies' Mission circle and a prominent member of the Ladies' Aid society. She was one of the most widely known and highly respected residents of Connellsville, winning the friendship and esteem of all with whom she came in contact. Her death is keenly felt by all who knew her. In addition to her husband, Mrs. Hoover is survived by one son, Roy P. Teeter, of Hamilton, Can., to her first marriage; two sisters, Mrs. W. B. Knollie of Pittsburgh and Mrs. Joseph Dixon of Connellsville, and one small granddaughter, Dorothy Alice Teeter. She was a cousin of John A. Brashear, the well known astronomer of Pittsburgh.

Funeral services will be held at the home Sunday afternoon at 2:30 o'clock with Rev. Wilbur Nelson, pastor of the First Baptist church officiating. Interment will be in Hill Grove cemetery.

GEORGE BLACKSTONE.
Private funeral services for George Blackstone were held yesterday afternoon at 3 o'clock from the family residence at Wharton, with Rev. J. L. Proudfoot, pastor of the First Presbyterian church, officiating. The pallbearers were W. C. Reynolds, Charles Davidson, John Rogers, J. T. Johnston, J. Donald Reid and Clarence Wilkey. Private interment was made in Hill Grove cemetery. Among the out of town persons attending were Miss Besse Reid, Scottdale; George Paul, Pittsburgh; Miss Taylor, Brownsville; Mrs. Frank Huston, Uniontown; and Richard Blackstone, Lead, N. D.

BIG STORE TO UNDERGO CHANGE OF MANAGEMENT

Julius Elkes and E. G. Goebert to Have Charge of the Kobacker Establishment.

Following the announcement in these columns a few weeks ago of the tremendous deal consummated by H. Kobacker & Sons in which the Boston Store at Columbus, O., was purchased by the Kobacker interests, necessitates a change in the management of the local establishment. Alfred Kobacker will divide his time between the Columbus store, an Connellsville and trusts that he will have the pleasure of meeting his many friends while in the store here.

The new managers are men well known in Connellsville. Julius Elkes for the past three years was owner of the Central store in West Crawford avenue in which time he has made many new friends. Previous to this he was advertising manager at the Kobacker store. Mr. Elkes has had wide experience in the department store business.

Mr. Goebert is not new to Connellsville as he was located here before going to Greensburg 18 months ago to assume charge of the Kobacker store in that city. Mr. Goebert has held responsible positions in Walla Walla, Washington; Wallace, Idaho; Eureka, Cal., and for two years with the May Company of Cleveland, Ohio. Previous to coming to Connellsville he was the manager of the first floor of Foster's Department store at Johnstown.

A stronger underselling policy will be followed by the new managers, and with the tremendous business connections of over 1,000 stores located throughout Western Pennsylvania, Ohio, Illinois and Michigan, the people of Connellsville can look to Kobackers as the headquarters for women's and children's wearing apparel and dry goods at underselling prices.—Adv.

THE SOISSONS

"THE BIRTH OF A NATION"—A peer of "The Birth of a Nation" has been presented today by "An All Star" Theatricals in 10 reels. "The Birth of a Nation" is regarded as the beginning and the end, the first and the last in perfection. The subject required two years to complete. There are over 5,000 people included in the cast—cost over one million dollars to produce. The story starts

at the Portsmouth plant of the Solvay company, the Toledo Furnace company at Toledo, and the Youngstown Sheet & Tube company at Youngstown, O. The plant of the Hamilton-Otto Coke company suspended operations about February 1, 1919.

In Pennsylvania the Clairton plant of the Carnegie Steel company began operation in June, 1918, and the Steelton plant of the Bethlehem Steel company was enlarged. The plant at Chattanooga, Tenn., was enlarged. Likewise the Polansbee, W. Va., plant of the LaBelle Iron Works and the Benwood, W. Va., plant of the Solvay company. Plants at Milwaukee and Marquette, Wisconsin, were enlarged, the number of ovens at the Ensley, Ala., plant of the Solvay company was increased. Additions were also made at the plants of the Solvay company at South Chicago, the Gary, Ind., plant, the Indiana Harbor plant of the Inland Steel company and the Ashland, Ky., plant of the Solvay company.

It is significant of changed conditions that the percentage of capacity attained in production was about the same in the first quarter of 1918 and due to lack of coal and in 1919 to lack of market or demand for the coke.

THE CORIER COMPANY

CHAPTER VII

BY the time the campaign for the Victory Loan began, Corwin had become moody and taciturn. He was still the cynic, scoffing at generous impulses; outwardly he professed to feel antagonistic toward the loan; and he continued to find fault and to seek the society of men who expressed the views he expressed.

But in his heart had begun to grow a great doubt. Struggling within him for expression, for encouragement, were emotions that sometimes actually hurt him. He wanted to express them; he felt they were the sincere impulses of his nature. But he had gone too far, now, to confess to his friends that he entertained a doubt that he had been wrong. He had the courage to oppose the war and the Government's policy; but he lacked the moral courage to admit that he had entertained opinions—or had expressed opinions—that an American should not have entertained.

He attributed—at first—the change that was coming over him to Molly's treatment of him.

For Molly, while she was coldly polite and dignified in his presence, did not speak one word to him that was not absolutely necessary to the carrying on of the business relations between them. There were times when, watching her, Corwin wondered if he could ever regain the hard, cold respect she sometimes threw at him when he was not looking at her; and sometimes when he did meet her gaze he saw her eyes flash with something that must have been very near contempt. But Corwin said nothing. There seemed to be nothing to say.

Meanwhile, it appeared that Falltown was going to fall again. Despite the vigorous campaign carried on by the Liberty Loan Committee, subscriptions lagged. Most of the town's citizens seemed to think as Corwin had expressed himself—that since the war was over there seemed to be no need of any more Liberty Loans.

There was no enthusiasm, no clamor, no indication of success. Though the bond subscription lagged, they made slow headway. When the campaign was half over Falltown had not raised more than a third of its quota; and when there remained only a few days more, and the Committee re-evaluated its efforts, the goal was still distant and seemingly unattainable.

Despondency, the committee apprehended, threatened. There were some reasons, when the last day of the campaign dawned, Falltown was more than two hundred thousand dollars behind its quota. The Committee expected that perhaps a hundred thousand would be turned in from salesmen not yet heard from—and from those who were deliberately holding back subscriptions for a driving kick, but that there would still be a hundred thousand dollars to make up.

Shortly after noon on the last day of the campaign Gary Miller and Molly Roberts entered Corwin's office. They had come by appointment to discuss a certain phase of a financial transaction concerning Roberts and Miller—Corwin acting merely as a lawyer—and they had scarcely dropped into their chairs toward which Corwin waved them when they began to talk upon the subject in which Falltown upon that moment was vitally interested—the Victory Loan.

Molly had asked to be excused for the afternoon. She had given no reason for the desired absence; she had not even spoken to Corwin after obtaining his permission—she had walked out, her shoulders squared, her head held high. Many times, Corwin had looked at the vacant chair with disquieting interest.

They talked of the Victory Loan—both Roberts and Miller. Corwin said nothing, for of late he was strangely reluctant to talk about the bond issues. He was even beginning to feel guilty every time he thought of them.

He was quick to note that both Miller and Roberts had lost some of the vivaciousness that had formerly characterized their reference to the bond issues; they spoke in quieter tones; they were not so demonstrative; they weighed their words more. It seemed to Corwin as he watched and listened, that their faces expressed guilt such as was in his own heart.

Roberts' brows were wrinkled; his eyes held a subdued, almost anxious expression. He seemed to be nervous—he fidgeted and unfolded his hands; he scuffed his feet on the floor; his face was red.

Miller, too, seemed to be in the clutch of a perturbation that would not be shaken off. Twice he cleared his throat as he looked at Corwin; and the second time he spoke:

"Looks like Falltown's going to fall again," he said.

Corwin looked sharply at him, for Miller's voice was hoarse and low—quite unlike his usual high-pitched, assertive tenor.

"Yes," said Roberts, shortly.

The three men exchanged glances.

"Failure is getting to be a habit with Falltown," remarked Corwin. In a former day he would have said that excitedly. Now his voice was expressionless, flat. The other two did not even smile at his words.

Roberts, though, spoke heavily. "The Liberty Loans are not popular with the people."

Miller cleared his throat. "That's a mistake," he said. "He seemed to look accusingly at the others. "Do you know who is responsible for the fall in Falltown to subscribe to one big one?"

"In this loan?" asked Roberts.

"In every loan!" snapped Miller. "It was the first flash of feeling he had experienced. And it seemed to Corwin and Roberts that he looked accusingly at as he endeavored to locate the culprit of the voice which he had heard him been about to utter."

"It's the fault of the people who call as he had been about to utter."

"I know. There are five hundred small subscriptions to one big one. Almost without exception the little fellows are coming forward with the subscriptions. The big fellows—most of them—are holding back. What the answer? I've got it—or what I think is the answer."

"The little fellow works hard. I usually get only one newspaper a day. He gets few books—he has time to delve into the shelves of a library to read yards and yards of official economy by this and that with none of whom know enough about ruling the Government to stink out pig-pen. He does not get time to read 'isms' of one kind and another to join clubs that profess to spare a man for higher thought. He does not get into the critical attitude of the reader of ancient philosophy—he is not a carping, cynical theorist. All he knows is enough work for his family, to save when can to get what few luxuries he can, to follow his Government bill, and to know enough to be patriotic. And when the Government tells there is to be a war and that so much money will be required to finish he goes right down in his sock gets it!"

"Now," went on Miller, "the fellow has made all the subscription he can carry. He is buying all the bonds of this loan. He has done his part and he's through. We're still a dread thousand dollars shy of quota." He now looked straight at Corwin—and then at Molly Roberts. "Do either of you forward of you ward off the influenza, lack of snapp or energy, is sale and weak, he or she should take a good iron tonic for the blood, such as 'Ironic' Tablets, made by Dr. Pierce, or his herbal tonic so big and favorably known as Golden Medical Discovery. Next to going to the woods to build up your health is this discovery of Doctor Pierce, made from wild roots and barks from American forest trees, and without a particle of alcohol in its make-up."

Corwin and Roberts exchanged glances, and both reddened.

"I see you do," grinned Miller.

Corwin who answered, "You changed your tune a little since week," he said. "It was only week that I heard you say you if the Government was going to."

"You waking up!" declared Miller, beginning to see that I've been narrow-minded and tight. I got thing that I spend hundreds of every year for things I could do it. I got to thinking that maybe too selfish about this thing make my money here, and the nearest has made it possible for me to make it by promoting me, by me opportunities to make it, lay money out of the country—to the land and its products; and I owe it to my country to confess when the Government asks money. And last night I said to fifty thousand dollars."

He raised his voice. There was an exultant note in it—it was the voice of a man who had been over some base passion that threatened him; he was laughing at it.

Of the men had heard a step outside—two, in fact—a heavy, unclumping, and a lighter, snit the three turned stolidly, only whitening.

On the threshold, his arms wide against the jambs to himself, a broad, genial smile, face, was Ben King.

He saw Molly standing behind him. Both her hands were on the shoulders of her face was pale and her eyes were mingled pride and fear.

If Corwin was blind, his forehead, and his rightless eyes for Tri-State 17, of the voice which he had heard him been about to utter.

Corwin's gaze went to the little forward, his body rigid, his wide with astonishment, his only whitening.

The Workman Behind the Sword!

It takes skill and strength to work all day in a shop or factory. Many a man is fighting just as hard behind the lines as did the boys at the front. But when a man (or woman) has to meet the attack of the influenza bacilli—ten to one he will have a close shave if his kidneys are not right. Influenza and Grippe often cause an inflammation of the kidneys—either at time of attack or afterward. It is due to nature's effort to throw off the poisons. When you are troubled with backache, or headache—when your kidneys get sluggish and clog, you must relieve them, as well as your bowels. Ward off serious troubles at once by obtaining at the drug store an anti-uric-acid tablet, first discovered by Dr. Pierce, and called "Anuric." This will flush the bladder and kidneys, and it is well to drink plenty of hot water, or better still, hot lemonade. Take occasional doses (two or three times a week) of a natural purgative, made up of May-apple, leaves of aloe, jalap, and rolled into a tiny, sugar-coated pill, to be had at all drug stores, as Dr. Pierce's Pleasant Pellets. Often this treatment will ward off the influenza, for the Grippe, when the man or woman lacks snapp or energy, is sale and weak, he or she should take a good iron tonic for the blood, such as "Ironic" Tablets, made by Dr. Pierce, or his herbal tonic so big and favorably known as Golden Medical Discovery. Next to going to the woods to build up your health is this discovery of Doctor Pierce, made from wild roots and barks from American forest trees, and without a particle of alcohol in its make-up.

DIAGRAMS EXPLAINING HOW CONVOYS WERE PROTECTED

MADE OCEAN SAFE FOR TRANSPORTS

Navy's Method of Guarding Against Submarines.

DEPTH BOMB BEST WEAPON

Large Carriers as Well as Troop Ships, Crossing in Convoy, Guarded by Destroyers—When U-Boat Was Sighted a Rabbit Hunt Ensued—With Guns and Depth Bombs Brought Into Play, While Convoy Zigzagged.

Few Americans know, during the months of dodging submarines, the navy's method of guarding against enemy submarines. Only now can they be enlightened. The accompanying diagrams explain it.

Because of the destroyer's speed, many bow and depth bombs, the submarine were in constant dread of being run into. To hit a U-boat square would mean to drive through her.

The most effective weapon against the submarine proved to be the depth charge, invented before America entered the war. A submarine's greatest reliance for defense is submergence. When it did submerge the destroyer dropped depth bombs as near the target as could be calculated.

An "ash can" (depth bomb) is a steel cylinder 18 inches in diameter and 28 inches long, and containing 800 pounds of TNT. It has a device for automatically exploding the charge at predetermined depth.

When a destroyer reached a position where the submarine was estimated to be, the "T" guns would be brought into play to fire depth charges. The first charge would be dropped from the stern. Then the destroyer moved ahead fifty yards, firing from the "T" guns and thus throwing a charge on each side for about 80 yards.

Four charges were usually dropped in a few seconds in this manner around the submarine's supposed position, as shown in the lower diagram. If the estimate of position was correct the submarine was at least badly damaged. If she was in the center of the pattern of depth charges she was sent down for good.

After the initial four charges the destroyer put her guns over and started turning in a spiral curve, dropping charges now and then, as shown in the lower diagram. If other destroyers were seen coming up, the first destroyer dropped a marker buoy to guide the others. Always the craft were prodigal with their charges. But the result was seldom certain. Submarines could eject oil to lead the attacking "hunts" and the U-boat had been sunk.

The upper diagram shows the difficulty found by a submarine that desired to attack a ship in convoy. The speed of a submerged submarine—that is the torpedo firing position—was unlikely to equal the speed of the convoy, so that the submarine could not hope to establish a convoy, or the success of an attack. It had to approach submergence and attack ahead.

OVER-ACIDITY

KI-MOIDS

on the tongue before eating and after each meal. The purity and goodness of Ki-Moids guaranteed by SCOTT & BOWNE, MAKERS OF SCOTT'S EMULSION.

The U-boat's most successful firing position was 600 yards on the bow of the target. Reaching that position, however, she was likely to find nearby one or more destroyers, making it necessary to poke her periscope up often, with attendant peril.

The upper diagram shows a destroyer five miles ahead of the convoy, with an observation balloon in tow. Every group of destroyers escorting transports had a balloon boat.

There were numerous other methods by which destroyers cordoned around convoys, forming practically impenetrable barriers.

Zigzagging on Signal.

There were several standard methods of slipping away from submarines by zigzag. Theoretically, and almost always in actual practice, the troop ships proceeded in a straight frontal line. By doing this the transports afforded a minimum of target. A torpedo missing one of the line, probably would miss them all, whereas if the vessels were in row, one behind another, not only might a torpedo catch one after missing a preceding ship, but from the same position the submarine could launch successive missiles at the pending troopships, taking a crack perhaps at the leader, another at the third or fourth member, and a final blow at the last in the row.

Zigzagging was in accordance with code diagrams and with code instructions. At given signals the commanding destroyer, going ahead at top speed after leaving the destroyers to fight it out with the submarine, would swing into varying degrees of zigzag.

The fleet commander would signal by wireless and by light-flash the plan of zigzag to be pursued. The transports in unison would swing a certain number of degrees and then, at a given interval, as prearranged, swing into another slant of a predetermined degree. A number of these swings would follow, all troopships adding together. Sometimes in the course of an attack the fleet commander would order two or three systems of zigzag in quick succession. The troopships complied instantly and harmoniously, because each held a code chart indicating the degrees and directions to be taken and at what intervals the changes of course were to be made.

The attack, the fleet would, at the fleet commander's signal, fall back into the line again.

Greatest Bliss is Congenial Work. There is no greater happiness in life than doing the work you love. It matters not what the work is—to some women it is embroidery, or writing a book, or baby tending, or studying chemistry, or cooking, or keeping a house polished. It does not always happen that we have great ability in the thing we enjoy doing—although the chances are that this is so. For nothing stimulates you to continued effort in a piece of work more than the consciousness that you do it well.

And so if you are unhappy—genuinely unhappy—in the work you're doing, try to find out what it is that you'd prefer to do. If there is nothing else in your mind, then perhaps your discontent is only temporary. But if you sincerely wish to do some other definite piece of work, you have a legitimate grievance and you owe it to yourself to pave the way for a new shot at a new occupation.

Lest We Forget

"The French and the 'ghosting' dies!"
The guns are still in France. The boys are coming home. The horror has gone from our prayers, and most of us can cheer without tears.
"The war is over."
But over there in lost France that saw the war's dramatic end, there is waste and devastation. Thousands of soldiers of France have no homes, no families, no friends. And seventy thousand American boys are over coming home. They are under wooden crosses in the fields of France and Italy.
The American people are going to show in the Liberty Loan of Victory that Victory is not made in vain for these things.

ROYAL WELCOME AWAITS COMPANY C ON ITS RETURN

Chamber of Commerce Takes Hold of Preliminary Plans For Reception.

CELEBRATE ON FOURTH

Independence Day Selected as Date for General Jubilee by the Friendly Sons of Thunder for Returned Men of All Branches of the Service.

Special to The Courier: SOMERSET, May 2—Somerset is preparing to royally welcome the heroes of Company C on their return home. This was decided on at a recent meeting of the executive committee of the chamber of commerce, when Chairman Miles A. Varner was given authority to name committees who will solicit subscriptions from the public.

The day of the company's arrival here will not be known before the 110th infantry arrives in Philadelphia. But members of the chamber of commerce will be at the dock when the troops disembark and will immediately get in touch with Captain W. Curtis Truxal and Lieutenant Wilbur S. Schell. Present War Department regulations provide for demobilizing returned regiments 48 hours following their arrival at American ports and it is expected that Captain Truxal will be able to name the exact hour when the Somerset county soldiers who are still members of his command will arrive in Somerset.

Meanwhile the chamber of commerce will go ahead with its plans, which call for the erection of a Victory arch and other decorative emblems, so that all will be in readiness to welcome the boys back home with greater enthusiasm than was shown when they left Somerset 20 months ago.

Everybody expects to see the old town more generously decorated and illuminated on this occasion, and again on the Fourth of July when a welcome home celebration in honor of all Somerset county soldiers and sailors will be held here.

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Earout (double strength) and add to it 1 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and he mucous stop dropping into the throat. It is easy to prepare costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Nausea, Etc.

Chronic acid stomach is exceedingly dangerous and suffers should do either one of two things.

1. If her they can go on a limited and often disagreeable diet, avoiding foods that disagree with them or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acids and prevent the formation of gas or sourness by the use of a little Bismarck Magnesia at their meals.

There is probably no better safer or more reliable stomach antacid than Bismarck Magnesia, which you can get from any drug store, and it is widely used for this purpose. It has no direct action on the stomach and is not a di- gestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of painful pills or artificial digestants.

Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

Make This Test For Acid-Stomach

There are millions of people who suffer almost daily from the horrors of an acid-stomach—indigestion, sour, gassy, stomach distressing heartburn, sickening food-repeating, painful flat and last miserable, puffed up, lumpy feeling after eating. Many of these people have tried treatment after treatment, medicine after medicine, others have gone to doctors and stomach specialists and some to hospitals but in spite of all of their efforts they have obtained no lasting relief or a permanent cure. These symptoms simply mean acid-stomach. If allowed to run on they are very likely to cause a lot of serious trouble. Dyspepsia, rheumatism, gout, lumbago, sciatica, splitting headache, dizzy spells, nervousness, sleeplessness, mental depression, melancholia, a feeling of listlessness and all goodness—these are just a few of the disorders which can be traced to acid-stomach. As a matter of fact, acid-stomach is often the direct cause of those almost incurable conditions known as catarrh of the stomach, intestinal ulcer and cancer of the stomach. The lives of those who suffer from these serious troubles are nothing short of daily agony. Surely, then, you must see how important it is to go at once to the seat of the trouble—acid-stomach. You know what acid-

mouth does to the teeth—how it eats right through the hard enamel and causes them to decay. Think then of the havoc that must be caused by excess acid in the stomach! Even if you are not suffering any immediate stomach pains, but are not feeling just as fit and fine as you should, you should by all means make this test: go to your drug store at once and get a big box of EATONIC. It is in the form of pleasant-tasting tablets—you eat them like a bit of candy. EATONIC is prepared for just one purpose—correcting acid-stomach by driving out the excess acid. EATONIC literally absorbs the excess acid. It brings instant relief from the pains of indigestion, heartburn, belching, sour, gassy stomach, flat, etc. It makes the stomach pure, sweet, cool and comfortable, puts it in a normal, healthy condition, so that your food is properly digested. You need every bit of strength you can possibly get out of the food you eat—and EATONIC helps you get it. Don't put this test off if you value your future good health and happiness. You run no chance at all because EATONIC is absolutely guaranteed to give you relief or your druggist will refund your money. This cost is a mere trifle.
